

World's 1st Portable Pinpointing Walk Through Metal Detector

- ✓ Anti-terrorist and Police equipment
- ✓ Portable and foldable, can be transported in a car or van.
- ✓ Single person assembly without tools - in less than 5 minutes
- ✓ Built in back-up battery which can work for at least 20 hours

VO-1313 Portable walk through metal detector

(Portable+Foldable)

- Memory Function**
Memory feature store settings for required operating environments
- Leading Technology**
World's 1st portable pinpointing walk through metal detector
- Colours**
Black or Camouflage
- Adjustable Sensitivity**
300 levels
- LED Indicators**
Inbuilt super bright LED indicators
- Easy Assembly**
Random assembly and swap

World's 1st Portable Pinpointing Walk Through Metal Detector

- Anti-terrorist and Police equipment
- Single person assembly without tools - in less than 5 minutes
- Portable and foldable, can be transported in a car or van.
- Built in back-up battery which can work for at least 20 hours

Since years of ago, the sales of our "VO" series of detecting gate has been improved all over the world, due to our product makes a stable performance on job even under a very terrible environment. As a matter of fact, our product has been used in many great international competitive events e.g. Torch Relay of 2008 Olympic Games, World Cup Match of 2009 South Africa, etc., because of the stable quality of our product, our continuous R&D and innovation in technology. Our detecting gate has the advantages as below: 1.Intelligent adjustment 2.Dummy operation 3.Friendly design 4.Left, middle and right regions display 5.Non-ferrous metal separated from black metal 6.Quality of waterproof reaches the highest grade

VO-1313

Portable walk through metal detector

Data Sheet:

Operating temperature : -20°C to +70°C (-4°F to +158°F)
 Relative Humidity :95%
 UV protection
 Fold size: L950XW600XH620mm
 Passage size: L810XW790XH2120mm
 External size: L810XW1180XH2240mm
 Package size: L1065xW675xH705mm
 N.W: 35kg G.W: 56kg
 Built in backup battery which can last at least 20 hours

Functions and characters:

1. Easy to install, portable, Assemble/Disassemble in 5 Minutes.
2. Automatically identifies and provides a 3-independent-zone detection upon installation (6 zones is optional)
3. Switching 6 sensor panels right and left in any order
4. Made from strong impact-resistance material of ABS and polycarbonate alloy.
5. Inbuilt super bright LED indicators.
6. Multi-units can work together closely at the same time without interference
7. There is no interference and be able to work normally when stick to large metal or X-ray scanner, no need to reduce sensitivity.
8. Automatic self-diagnostics and self-balancing environment.
9. Automatic passenger and alarm counting.
10. Bright LED to indicate the traffic instructions.
11. Built-in 2 batteries, last 24 hours
12. LCD indicating parameters. 300 sensitivity levels.
13. Harmless to human body, heart pacemaker , pregnant women, magnetic floppy, recording tapes, etc.
14. Conforms to the applicable international standards for electrical safety and CE,ROHS,FCC.
15. PCT international patent and national invention patent certificates are available.

Inspection report:

Practical application

1	<p>Stick to X-ray scanner</p> <ul style="list-style-type: none"> - no omitted alarm - no false alarm 	
2	<p>Multi- units work closely at the same time</p> <ul style="list-style-type: none"> - no omitted alarm - no false alarm 	
3	<p>Work in large metal house</p> <ul style="list-style-type: none"> - no omitted alarm - no false alarm
